## REMARKS.

The total Bonded debt of the town is \$39,000,00, and bears 6 per cent interest, and is due April 1st, 1890, and April 1st, 1900. The net debt of the town March 1st, 1882, is \$33,608, 40.

The burned district has been nearly re-buit, and assumes a very business like appearance.

In closing our official connection with the town, we call the attention of those liable to taxation to the law in relation to Inventories, and hope that all will comply with the requirements and save themselves and the assessors and endless amount of trouble, and also remember that the Doomage tax the past year was \$300,00. In town business, our motto is justice to all, and no special favors for any one.

Respectfully submitted,

*From* JOHN A. McGREGOR, } Selectmen  
GEORGE H. KEYES, } of  
CALVIN H. LEWIS, } Wilton.

We hereby certify that we have examined the foregoing accounts, and find them correct, and vouchers have been presented for the amounts paid.

## REMARKS.

It is the glory of our common School system, that its privileges are freely open to all classes of children of suitable age, without regard to distinctions that prevail, and are heeded elsewhere. Here, no nationality, nor any religious sect, nor political party, shall exclude any other. This kind of school, is broad as humanity, and it offers its educational aids to all who will come and use them. Natives and foreigners, here should meet on terms of equality. Not nationality, but *personal, moral and intellectual qualifications* for the office of teacher, should alone be considered, in selecting a teacher.

The intermingling of native and foreign elements in this school, are well fitted to illustrate the grand doctrine of Human Brotherhood, and help fit the young to become good neighbors and good citizens, in obedience to the Golden Rule.

The prosperity of our schools depends much upon the intelligence and the fidelity of Prudential Committees, especially in districts where the number of scholars is large,—as in No. 4. Without casting any reflections on other officials of this kind, we feel it to be highly proper to say, that the Prudential Committee of No. 4, Mr. Albert Beard, is worthy of high commendation for the deep interest he has exhibited in his efforts to make the several school-rooms, and their surroundings pleasant and comfortable.

Some very annoying relics of barbarism, he has promptly removed, and brought into their place, what greatly tends to health, to good morals, and a higher civilization.

One school room in this Dist. has been entirely renovated and newly furnished. New furniture has also been put into the school house in Dist. No. 1, which is a great improvement.

While we would encourage a variety of innocent amusements, which may contribute to health and enjoyment, and which leave an increasing relish for close study, we must express our *decided disapproval* of *card* playing at school. Nothing that has the least approach to gambling, in any form, should be allowed a place in any system of education.

The habit of exact *truth-telling* should be encouraged in all our schools, and the opposite habit of lying, be strongly rebuked and discouraged. Lying is the sin of sins ; often employed to conceal other forms of wrong. The Apostle Paul says “The Cretans are always liars.” But unfortunately, this mean vice was not confined to that ancient, foreign people. History in this respect repeats itself ; thus liars have not entirely disappeared from our schools. This sin breeds only mischief in our schools ; it creates, and spreads false and pernicious opinions among teachers and scholars, and in the districts where it prevails ; and makes not a few bitter enemies, who otherwise would be good friends.

From all that we can learn from reliable sources, the teachers in our schools have labored with commendable zeal to do their duty, and the scholars have quite generally improved their opportunities for acquiring useful knowledge, and the formation and culture of good habits. No serious difficulties have arisen between teachers and scholars, demanding our official adjustment. Gossip, there may have been in all districts, more or less, as usual ; because

"people will talk," and claim the right to form and express an opinion about a great variety of matters, whether they have any real form of truth on which to found them or not. So school matters need not expect to escape this prevalent custom. Still the friends of education need not be greatly alarmed, for, as has been well remarked, "Time, which blabs out all things, will blab out the truth by and by."

So let us take courage, for under the perfect government of God,—the all-wise, powerful, and loving Father, the *true* and the *right* are sure to *win* at last.

Respectfully submitted,

I. SUMNER LINCOLN,
